

# IU Bloomington

## Research Space Guidelines

### KEY PRINCIPLES

Research space **belongs to the institution**

Space is **assigned to activities**, not individuals

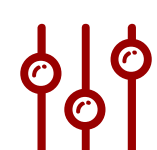

Space allocation based on **programmatic needs**

Space allocation considers **future research productivity**

**Interdisciplinary research** should be promoted

**Develop metrics** for research space utilization

Vacant or underutilized space **should be repurposed**

### RECOMMENDATIONS

Create **advisory committees** for interdisciplinary buildings

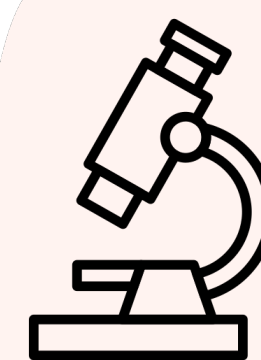

Form a **research space subcommittee**

Design **flexible** research spaces

Provide **centralized** research storage

**Maintain and review** space records

Review **space guidelines** regularly

### RESEARCH SPACE ALLOCATION PROCESS
